

# Park Ranger CoP resources on NRM Gateway

Bonnie Bryson, Ed.D.  
ERDC Advisor to Park Ranger CoP

*May 28, 2014*

# CoPs are the People

Community of Practice in the Corps

“is a group of people who regularly interact to collectively learn, solve problems, build skills and competencies, and develop best practices around a shared concern, goal, mission, set of problems, or work practice.”

**“Ideally, every USACE team member will be a member of at least one CoP”**

ER – 25-1-8

## Park Ranger Notes

This site serves the U.S. Army Corps of Engineers Park Ranger Community of Practice (CoP). Park Rangers are the professional uniformed team members (including but not limited to 0099, 0025, 0028, 0400 job series) who perform, manage, or supervise work in the stewardship of Federal lands, waters, and park resources at Corps operated and maintained water resources projects. (See [excerpt](#) from Career Video. [Full Video](#).) Functions include but are not limited to park management; natural, historical, and cultural resource management; watershed management; endangered and/or special status species management; flood risk management; real property and shoreline management; environmental compliance practices; asset management, visitor assistance; safety; infrastructure surveillance and protection; and the development of interpretive and recreational programs for the benefit of the public. Park Rangers are leaders in both emergency response and community outreach. Park Rangers are the Corps face to the nation and may be the only contact the public has with the agency.

This site contains beneficial information for every park ranger, from the new hire to the seasoned veteran, which will help enhance professionalism. Your CoP is supported by a Park Ranger CoP Advisory Board ([see charter](#)). This workforce is part of two broader CoPs: Natural Resources Management (NRM) and Operations & Regulatory. You are encouraged to utilize, share and contribute to the [NRM Gateway](#) as well as the [Operations & Regulatory Gateway](#) - this is your [Community of Practice](#).

## RecSTATUS Self Assessment Tool

### Self Assessment Tool - Data Entry

RICHARD B RUSSELL DAM AND LAKE

#### Personnel Staffing

Project Level Staffing *Fields are pre-populated with last year data entry*

- In this table report only FTEs charged to recreation for personnel physically working at this project.
- Enter to one decimal place the number of FTE's, by staff category, that were charged in FY11.
- **Only the time charged to recreation should be included, so if an individual had half their time charged to recreation, that person would contribute 0.5 FTE to the project total.**
- If you had a position with a vacancy that was not backfilled during the FY, deduct for the period of the vacancy. For example, if a full time position charged to recreation was vacant 6 months during FY 11, include 0.5 FTE for that position in your project total.

For all the FTE reporting, only the portion of the FTE actually charged to recreation should be included. If part time or temporary employees worked less than a full year (12 months = 1 FTE), record only the time they worked **THAT WAS CHARGED TO RECREATION** cost codes (i.e., an employee worked a total of 6 months [0.5 FTE], but only 50% of that 0.5 FTE charged to recreation, so what is reported in the table is 0.25 FTE). If you're recording multiple part-time or temporary employees for one category, add their combined time worked **THAT WAS CHARGED TO RECREATION**, and report it in relation to a FTE (i.e., 6 seasonal rangers each working 3 months charged to recreation [6 x 0.25 FTE] = 1.5 FTE). You can also use hours charged to recreation based on the average annual FTE hours at 1,720 to compute FTEs. For example, if John spent 430 hours on recreation, it should be recorded as 0.25 Rec FTE (430/1720).

FTE's charged to recreation personnel physically working at this project (or water safety/interpretive – see definition below table*).	Full-Time FTE's charged to recreation	Part-Time FTE's charged to recreation	Temporary FTE's charged to recreation
Project Site Managers (Operations Project Managers, Project/Lake Managers, Resource/Park Managers)	0.0	0.0	0.0
Natural Resource Specialists and Park Rangers	0.0	0.0	0.0
Environmental Specialists	0.0	0.0	0.0
Administrative Staff	0.0	0.0	0.0
Maintenance Staff	0.0	0.0	0.0

Input example continued on next slide

# Park Ranger Glimpse - Newsletter type feature

The screenshot shows the NRM Park Ranger Gateway website. At the top left is the US Army Corps of Engineers logo. The main header is green with a navigation bar containing links: Home, Visitors, Lake Discovery, Recreation, Env Compliance, Env Stewardship, Partners, News/Events, People, Forums, Learning, GETS, Tools, New Postings, Submit, and Index/Search. Below the header, the left sidebar lists 'Communities of Practice' (Main CoP, Operations & Regulatory, Asset Management, Flood Risk Management, Hydropower, Inland Navigation Infrastructure, Natural Resources Management, Park Rangers, Navigation, Operations Project Managers, Regulatory, Safety, Civil Works Environment) and 'Business Processes' (Headquarters, Acquisition, Administration, Budget, Communication & Marketing, Environment, Facility & Land Use Management, Financial Management, Human Resources, O&M Plans, Policy & Procedures, Programs & Partnerships, Related Sites, Research & Development, Safety, Security & Risk Management, Teams, Tools/AIS). The main content area features the 'Park Ranger Glimpse' logo with the tagline 'into the future...'. Below this, a list of 'Articles for this issue' includes: 1. Park Ranger Glimpse, 2. Park Ranger CoP Gateway Page, 3. Realigned Park Ranger CoP Advisory Board, 4. NRM and Park Ranger SmartBooks and How to Maintain your Record, and 5. Park Ranger Facebook Page. The 'Park Ranger Glimpse' section welcomes visitors and states that glimpses will be sent periodically. The 'Park Ranger CoP Gateway Page' section notes that the CoP has its own gateway page and provides a URL: <http://corpslakes.usace.army.mil/rang ers.cfm>. The 'Realigned Park Ranger CoP Advisory Board' section announces the board's realignment in August 2012 and provides a URL for the current board members: <https://www1.wes.army.mil/nrm/smartbook/index.cfm?Code=Topic&Prog=rangercop&Id=0>.

Caveats: NONE

Kevin,

Please post this.

## REC Network Questions & Answers

### REC Network Questions & Answers

The REC Network and InterpNet are ways for Corps of Engineers people across the country to work together to develop innovative solutions and share ideas to solve common problems. The RECNet (formerly called the RangerNet) is for all Natural Resource Management topics, while the InterpNet is for interpretive and Visitor Center management issues.

Since the groups started, people have asked for an archive of topics and ideas. I hope that finding a common interest will encourage Corps people to take advantage of email and develop working relationships nationwide.

The Army Corps of Engineers is the steward of the lands and waters at Corps water resources projects. Its Natural Resources Management mission is to manage and conserve those natural resources, consistent with the ecosystem management principles, while providing quality public outdoor recreation experiences to serve the needs of present and future generations.
